

ZCAMS
Zambia Customs Agent Management System

ZCAMS System Modules Tutorial

High-level guide to the main ZCAMS modules, roles, actions, and expected outcomes.

Document	ZCAMS System Modules Tutorial
Audience	ZAFFA, CFA company administrators, declarants, trainers, and support teams
Generated	29 May 2026 09:25 UTC
Theme	ZCAMS green, gold, orange, and light operational panels

This document uses designed visual panels instead of live screenshots. The panels are intentionally high-level so they can be shared with users, ZAFFA stakeholders, and integration partners without exposing live operational data.

1. System Journey At A Glance

ZCAMS follows a controlled customs journey: **BL upload, reviewed BL, Z-SAD generation, GN 83 invoicing, CapitalPay checkout, payment settlement, and cargo release.**

1. Upload BL	2. Review & Z-SAD	3. Invoice	4. Check-out	5. Cargo Release
--------------	-------------------	------------	--------------	------------------

Role	Main responsibility	Typical modules
Super Admin	Platform governance across all CFA companies.	Super Admin, Dashboard, BLs, Reviewed BL, Invoices, Admin, Chat, GN 83
Company Admin	Company-level users, profile, compliance, and operations.	Admin, Company Profile, BLs, Reviewed BL, Invoices, Support
Declarant / Agent	Operational clearance work for one CFA company.	Dashboard, BLs, Reviewed BL, Invoices, Check-out, Contracts, Chat

2. Module-by-Module Tutorial

1. Login

/login

All users

Purpose: Secure entry point for Super Admin, Company Admin, and Declarant users.

Key actions: Enter username or email; Enter password; Open role-based workspace.

Expected outcome: The user lands on the correct dashboard with a professional session.

ZCAMS Customs Journey	/login Route	All users Role scope	Guided Status
Login	Secure entry point for Super Admin, Company Admin, and Declarant users.		
	Enter username or email Enter password Open role-based workspace		

2. CFA Onboarding

/onboarding

New CFA company

Purpose: Register a clearing and forwarding company for ZAFFA review.

Key actions: Capture company details; Upload documents; Create first admin account.

Expected outcome: The company enters the approval queue for Super Admin review.

ZCAMS Customs Journey	/onboarding Route	New CFA company Role scope	Guided Status
CFA Onboarding	Register a clearing and forwarding company for ZAFFA review.		
	Capture company details Upload documents Create first admin account		

3. Dashboard

/dashboard	All signed-in roles
------------	---------------------

Purpose: Monitor BL, Z-SAD, invoice, payment, and release work.

Key actions: Review metric cards; Use quick actions; Open Agentic Mode.

Expected outcome: Users know what work requires attention.

ZCAMS Customs Journey	/dashboard Route	All signed-in roles Role scope	Guided Status
Dashboard	Monitor BL, Z-SAD, invoice, payment, and release work.		
	Review metric cards Use quick actions Open Agentic Mode		

4. BLs

/bls	Declarant, Company Admin, Super Admin
------	---------------------------------------

Purpose: Upload or capture Bills of Lading for customs processing.

Key actions: Upload BL PDF; Confirm extracted fields; Select GN 83 category.

Expected outcome: The BL is ready for review and Z-SAD generation.

ZCAMS Customs Journey	/bls Route	Declarant, Company Admin, Super Admin Role scope	Guided Status
BLs	Upload or capture Bills of Lading for customs processing.		
	Upload BL PDF Confirm extracted fields Select GN 83 category		

5. Reviewed BL

/reviewed-bl

Declarant, Company
Admin, Super Admin

Purpose: Issue and manage active Z-SAD records linked to reviewed BLs.

Key actions: Review BL; Issue Z-SAD; Request invoice; Release cargo.

Expected outcome: The shipment has one active Z-SAD and can proceed to billing.

ZCAMS Customs Journey	/reviewed-bl Route	Declarant, Company Admin, Super Admin Role scope	Guided Status
Reviewed BL	Issue and manage active Z-SAD records linked to reviewed BLs.		
	Review BL Issue Z-SAD Request invoice Release cargo		

6. Invoices

/invoices

Declarant, Company
Admin, Super Admin

Purpose: Track GN 83 invoices and payment settlement status.

Key actions: Review invoice totals; Download PDF; Mark settled.

Expected outcome: Payment state is clear and linked to cargo release rules.

ZCAMS Customs Journey	/invoices Route	Declarant, Company Admin, Super Admin Role scope	Guided Status
Invoices	Track GN 83 invoices and payment settlement status.		
	Review invoice totals Download PDF Mark settled		

7. Check-out

/checkout

Declarant, Company Admin, Super Admin

Purpose: Open or share CapitalPay checkout links.

Key actions: Find awaiting invoice; Open Pay Now; Share payment link.

Expected outcome: Importer or CFA can complete payment outside manual follow-up.

ZCAMS Customs Journey	/checkout Route	Declarant, Company Admin, Super Admin Role scope	Guided Status
Check-out	Open or share CapitalPay checkout links.		
	Find awaiting invoice Open Pay Now Share payment link		

8. Contracts

/contracts

Company Admin, Super Admin

Purpose: Generate and manage contract documents with importers.

Key actions: Create contract; Send signing link; Track signing status.

Expected outcome: Commercial terms are documented and auditable.

ZCAMS Customs Journey	/contracts Route	Company Admin, Super Admin Role scope	Guided Status
Contracts	Generate and manage contract documents with importers.		
	Create contract Send signing link Track signing status		

9. Company Profile

/company-profile

Company Admin, Super Admin

Purpose: Maintain company details, documents, users, and certificates.

Key actions: Update profile; Manage documents; Review users.

Expected outcome: CFA profile remains current for compliance and integrations.

ZCAMS Customs Journey	/company-profile Route	Company Admin, Super Admin Role scope	Guided Status
Company Profile	Maintain company details, documents, users, and certificates.		
	Update profile Manage documents Review users		

10. Notifications

/notifications

All signed-in roles

Purpose: Read system events for BLs, invoices, support, and approvals.

Key actions: Review alerts; Filter messages; Follow up on events.

Expected outcome: Users have a timeline of actions and required attention.

ZCAMS Customs Journey	/notifications Route	All signed-in roles Role scope	Guided Status
Notifications	Read system events for BLs, invoices, support, and approvals.		
	Review alerts Filter messages Follow up on events		

11. Support

/support

All signed-in roles

Purpose: Raise and monitor operational support tickets.

Key actions: Create ticket; Add details; Track response.

Expected outcome: Issues are captured with context for admin support.

ZCAMS Customs Journey	/support Route	All signed-in roles Role scope	Guided Status
Support	Raise and monitor operational support tickets.		
	Create ticket Add details Track response		

12. ZCAMS Chat

/chat

All signed-in roles

Purpose: Ask workflow and GN 83 questions inside ZCAMS.

Key actions: Ask a question; Review guidance; Use answer in workflow.

Expected outcome: Users receive contextual help without leaving the platform.

ZCAMS Customs Journey	/chat Route	All signed-in roles Role scope	Guided Status
ZCAMS Chat	Ask workflow and GN 83 questions inside ZCAMS.		
	Ask a question Review guidance Use answer in workflow		

13. GN 83 Schedule

/gn83

All signed-in roles

Purpose: Reference Gazette Notice fee rules and cargo categories.

Key actions: Search categories; Review minimum fees; Confirm billing basis.

Expected outcome: Invoice amounts align with the official fee schedule.

ZCAMS Customs Journey	/gn83 Route	All signed-in roles Role scope	Guided Status
GN 83 Schedule	Reference Gazette Notice fee rules and cargo categories.		
	Search categories Review minimum fees Confirm billing basis		

14. Company Admin

/admin

Company Admin, Super Admin

Purpose: Manage company users, oversight, compliance, and support tools.

Key actions: Create users; Review operations; Use support tools.

Expected outcome: Company-level governance is handled without platform access.

ZCAMS Customs Journey	/admin Route	Company Admin, Super Admin Role scope	Guided Status
Company Admin	Manage company users, oversight, compliance, and support tools.		
	Create users Review operations Use support tools		

15. Super Admin

/super-admin	Super Admin
--------------	-------------

Purpose: Control platform-wide users, CFA registry, sessions, audit, and support.

Key actions: Approve CFAs; Manage all users; Review transactions.

Expected outcome: ZAFFA can monitor and govern the full ZCAMS platform.

ZCAMS Customs Journey	/super-admin Route	Super Admin Role scope	Guided Status
Super Admin	Control platform-wide users, CFA registry, sessions, audit, and support.		
	Approve CFAs Manage all users Review transactions		

16. Agentic Mode

Dashboard modal	Declarant, Company Admin, Super Admin
-----------------	---------------------------------------

Purpose: Run a guided BL-to-Z-SAD-to-invoice workflow with human review.

Key actions: Upload BL; Confirm five values; Generate Z-SAD and invoice.

Expected outcome: The workflow completes faster while preserving human approval.

ZCAMS Customs Journey	Dashboard modal Route	Declarant, Company Admin, Super Admin Role scope	Guided Status
Agentic Mode	Run a guided BL-to-Z-SAD-to-invoice workflow with human review.		
	Upload BL Confirm five values Generate Z-SAD and invoice		

3. Trainer Notes

Training topic	What to demonstrate	Success signal
Role-based navigation	Log in with each role and compare visible modules.	Users understand why screens differ by role.
Workflow strip	Move from BLs to Reviewed BL, Invoices, Check-out, and release.	Users can follow the customs journey without guessing.
Notifications and audit	Show how system events appear after actions.	Users trust that actions are tracked.
Support and chat	Raise a ticket and ask a ZCAMS Chat question.	Users know where to get help.
